

The Future is Now...

VIRTUAL AUDITS

NOW YOU CAN HAVE:

- > THE RIGHT EXPERTS.
- > IN THE RIGHT PLACE.
- > AT THE RIGHT TIME.

> WHAT IT IS:

Lachman Consultants is using leading edge technology to enable a rich and immersive virtual experience for remote facility touring in real time by our global team of experts, while at the same time ensuring confidentiality via state-of-the-art compliance and security.

> HOW IT WORKS:

We provide an easy-to-use hand-held 360 degree camera for your on-site team. While setup is simple, we also offer technical support and instruction to ensure a successful and value-added experience.

With virtual goggles, our experts are able to participate on the tour and observe your facility in 360 degrees – giving them a rich and immersive experience nearly equal to being at the facility. This unique and innovative experience enables Lachman Consultants to provide an extremely valuable comprehensive and accurate service to its clients that is nearly similar to if we were physically on-site. Remote participants may also join without special goggles and using just a standard PC or cell phone.

> THE VALUE:

With this leading-edge capability, we are able to responsively support your compliance needs today and utilize our best experts, regardless of their location around the globe. There is no longer a need to delay necessary inspections due to travel restrictions. With Lachman's Virtual Audits, we are able to maximize the time we spend – *saving time and money.*
